

## DECORATIVE WINDOW FILMS

Decorative Window Films are perfectly suited for interior glass partitions or the inside surface of windows. Available in several textures at a fraction cost of etched glass. Common Applications include:

- \* Conference Rooms
- \* Lobbies
- \* Retail Environments
- \* Residential Settings (Shower doors, cabinets, etc.)
- \* Private Offices
- \* Glass Partitions
- \* Verandas

Decorative window films are designed for interior glazing. The decorative window films are 2 mil thick and combine shatter resistant and sun control properties that are commonly used in commercial and residential settings.

Custom Applications

## COST EFFECTIVE SOLUTION

The traditional method of acid etched patterned glass is an expensive option. It is time-consuming and costly to install, difficult to maintain, and virtually impossible to alter. By contrast, decorative films offer the same look at a fraction of the cost, but can be easily changed when a new look is desired or required. And they can be easily maintained with conventional glass cleaner.

## ALL DECORATIVE WINDOW FILMS CAN BE CUSTOM CUT FOR EACH APPLICATION.

Decorative window film opens unlimited design possibilities, allowing you to bring vibrant color, visual effects, textured feel, and graphic patterns to nearly any glass surface. You can even customize a space with a corporate logo or signage. Offering endless choices for architects and interior designers, decorative window film is available in a range of patterns, colors and finishes, including:

- \* Squares, dots, stripes, and custom logos
- \* Red, yellow, green, blue, bronze, white, black, silver, frost
- \* Matte, translucent, opaque and textured finishes
